PROFILE

Founder of Tsk's Tech Services, a tech studio based in Cotonou dedicated to democratizing technology access across Francophone Africa. Hybrid profile combining web/mobile development, UX/UI design, digital marketing and artificial intelligence. Ships concrete projects around AI agents and automation (AI hackathons, Anthropic certification), with a real ability to deliver fast, solo or in a team.

EXPERIENCE

Founder & CEO · *Tsk's Tech Services · Cotonou, Benin*
August 2024 — Present

- End-to-end delivery of client projects (web development, design, digital communication), team management and client relations.
- Lead Tsk Tremplin, a free digital accompaniment program for artisans and merchants.
- Designed custom solutions combining development, design and artificial intelligence.

French Language Trainer (Literacy Program) · *MPDS, École des Béréens · Zè, Benin*
August 2025 — Present

- French language classes for adult learners as part of an NGO-led literacy program.

Graphic Design Assistant · *C'com · Benin*
June 2023 — October 2024

- Graphic design and photo retouching for multimedia communication materials.

PROJECTS & AI HACKATHONS

DiagnoCommerce — AI Factory Hackathon · *native.builder / lablab.ai*
August 2026

- AI diagnostic tool for small merchants, built in a solo 48h sprint: React, TypeScript, Tailwind CSS, Supabase, Claude (Anthropic) via the AI/ML API.
- Successfully submitted before deadline.

Trade Verification Firewall — Alpaca Hackathon · *Team with Madiha Ashiq*
August — September 2026

- Two-agent AI system (trade signal generation and cross-verification) to reduce AI hallucination in trading; stack: n8n, Claude, Alpaca MCP.
- Project submitted; certificate obtained.

AFRI-EDGE / InfraForge 7X — AI Infra Summit Hackathon · *Online*
September 2026

- Infrastructure-aware AI runtime intelligently orchestrating and routing workloads across Local, Edge and Cloud based on latency, cost, compute availability and complexity.
- Project submitted.

SKILLS

- Web/mobile development: React, Vite, TypeScript, Supabase
- AI agents & automation: agent design, n8n, AI API integration (Claude)
- Design: UX/UI, Photoshop, Illustrator, Figma
- Digital marketing & social media
- Team and client project management

- Client relations, sales and negotiation

EDUCATION

Licence 1 — Software Engineering / Development — University of Abomey-Calavi (UAC), Benin — Ongoing
Scientific Baccalaureate (Series D, Biology-Geology) — CEG Godomey, Benin — 2026
Computer Science & Digital Tools — CJLE, Benin — 2024
Diploma in Graphic Design — C'com, Benin — 2022

CERTIFICATIONS

AI Fluency: Framework & Foundations — Anthropic Academy — 2026
Additional AI certifications in progress.
